

THE AURORALIGHT
DIFFERENCE

auroralight[™]
Elevating The Standard In Architectural Lighting

We strive to elevate the standard in architectural lighting. We are inspired by the many ways our products help you create extraordinary projects. Our materials, our innovation, and lifetime warranty lead the industry today and will continue to do so for years to come. We invite you to experience the difference.

CATENARY MOUNT SYSTEM

FEATURES

Auroralight's new Catenary Cable Mount J-box; machined from solid Billet Brass on our ultra-modern CNC mill-turn lathes. The J-box itself has a separate attachment for catenary cables up to 1/4" dia. & features a Cable Brake System to prevent luminaire slippage due to swag. Options include the "Rigid swivel mount" that allows for rigid attachment of the luminaire while allowing for up to 15° of cable swag; allowing the fixture to hang plumb.

- Solid Brass Construction
- Pre-assembled System for Easy Installation
- Compact Design
- 15° Swivel-Pro™ For Rigid Mount Applications
- Cable Brake System™
- All Luminaires are Field Serviceable
- UL Listed for Low Voltage
- Made in the USA
