

# SUSTAINABLE

OUR RESPONSIBILITY

We believe that improving the environmental performance of our business starts with our products. We carefully examine our products throughout their life cycles including controlling the quantity and types of materials used in their manufacture, improving their energy efficiency, and designing them for better recyclability. We enjoy a beautiful well lit Earth and we consider it a privilege to leave it better for the next generations.

# THE AURORALIGHT

# DIFFERENCE

We strive to elevate the standard in architectural lighting. We are inspired by the many ways our products help you create extraordinary projects. Our materials, our innovation, and lifetime warranty lead the industry today and will continue to do so for years to come. We invite you to experience the difference.

Elevating The Standard In Architectural Lighting

EXPERIENCE  
— THE —  
EXTRAORDINARY

# TRUST

## LIFETIME WARRANTY

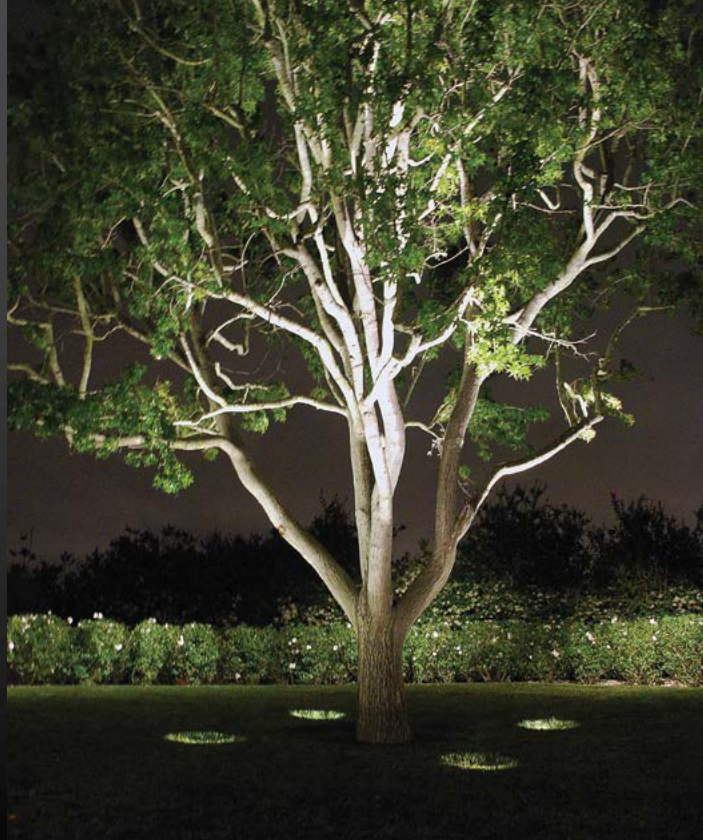

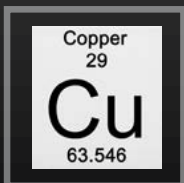

For over 22 years customers have trusted us to help them create the extraordinary. Every night we help you to enjoy beautiful illumination that blankets your property, provides a safe and inviting atmosphere, and helps you to experience the difference that is Auroralight. We work tirelessly every day to craft luminaires that will last nearly forever. Our lifetime warranty was designed to give you complete satisfaction and peace of mind in specifying and purchasing Auroralight.

# MATERIALS

## COPPER & BRASS

Auroralight exclusively utilizes natural copper and brass. Chosen for superior durability and its thermal properties, our luminaires will endure the harshest of environments. With time and exposure to the elements, copper and brass will form the classic verdigris patina for which it is known. Premium materials are just the beginning of the quality you expect from Auroralight.

# INNOVATION

## PRECISION CRAFTSMANSHIP

Exquisitely crafted and time tested on properties around the globe. Trusted by Lighting Professionals for over 22 years. State-of-the-art engineering, CNC Machining Technology, and decades of real-world lighting experience are put together to produce a family of exceptional products designed, manufactured, and assembled in Carlsbad, California, U.S.A.
